Quality certificate BRAKE FLUID DOT-4

It is heavy duty, full synthetic hydraulic brake fluid to be used in brake systems of vehicles requiring FMVSS 116 DOT 4 standard. Origin: **Russian Federation**

QUALITY INDICATORS

№	Name of indicator	Requirements TS 2451-0002-37511505-2014 with rem. 1	Results of the analysis
1.	Appearance	Transparent homogeneous liquid from light yellow to light brown color without a settle and visible mechanical impurities	conforms
2.	Kinematic viscosity mm ² /s at: plus (100,0 ± 0,5) °C,	not less 1,5	2,16
3.	Boiling temperature of a dry liquid, °C	not less 230	240
4.	Stability at a high temperature, °C	not more 5,0	4,6
5.	Indicators of ion activity of hydrogen, (pH), in the range	7,0-11,5	8,00

SAFETY INDICATORS (according to TR CU 030/2012)

№	Name of indicator	Normative value	Results of the analysis
1.	Boiling temperature at a pressure of 101.3 kPa, °C	not less 115	240
2.	The hydrogen index (Ph)	6 - 10	8,00
3.	Substance of mechanical impurities, in % of mass	not more 0.03	0.00

The conclusion: the Product corresponds to requirements of TS 2451-0002-37511505-2014 with rem. 1
Warranty storage stability 3 years.
